For Immediate Release

## **OSI's Integrated Navigation and Tactical System Selected for Indian Navy New Build Project**

OSI Maritime Systems (OSI) is pleased to announce the signing of a contract to provide Integrated Navigation and Tactical Systems (INTS) for the Indian Navy Cadet Training Ship (CTS) new build project. The three ships are being built in India by the ABG Shipyard.

INTS is an integrated navigation and tactical bridge system designed specifically to meet the needs of the military naval vessel market. Fully scalable, INTS can be purposed designed for small craft such as Patrol Boats up to Major Warships. Featured within INTS is an array of multi-function consoles which display navigation and tactical outputs such as Radar, Conning, and OSI's Electronic Chart Precise Integrated Navigation System (ECPINS®). ECPINS for Warships is an International Maritime Organization (IMO) Approved ECDIS – the only ECDIS independently certified against NATO WECDIS STANAG 4564.

### **About OSI**

OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military customers for over 20 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 19 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
