

OSI Maritime Systems Signs Contract to Deliver WECDIS Systems for the Turkish Navy MILGEM Program

Burnaby, BC, April 7, 2016 - OSI Maritime Systems (OSI) announced the signing of a contract to provide Warship Electronic Chart Display and Information Systems (WECDIS) to the Turkish Navy for the MILGEM Corvette New Build Program.

Under the terms of this contract, OSI will deliver WECDIS systems, including its world leading ECPINS Warship software for hulls 3 and 4 of the MILGEM program.

Previously, OSI was contracted to deliver and install systems on hulls 1 and 2.

OSI is the world leading provider of WECDIS NATO STANAG 4564 compliant systems. The Turkish Navy has deployed OSI systems on a number of classes of warships.

About OSI

OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military customers for over 20 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 20 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
