

## **OSI to Showcase Integrated Navigation & Tactical Innovation at Balt Military Expo**

Burnaby, BC, June 17, 2016 - OSI Maritime Systems (OSI) will be exhibiting a range of the company's leading naval integrated navigation and tactical solutions at the Polish Balt Military Expo, June 20 – 22, 2016, AMBEREXPO Exhibition & Convention Centre, Gdańsk.

The main focus of the OSI display will be on advanced solutions including OSI's ECPINS® (Electronic Chart Precise Integrated Navigation System). In use by over 20 naval customers worldwide, ECPINS is an International Maritime Organization (IMO) Approved ECDIS, and the only ECDIS independently certified against NATO WECDIS STANAG 4564.

In addition, OSI will be presenting core elements of INTS (Integrated Navigation & Tactical System), a fully scalable integrated bridge system (IBS) that provides watchstanders flexibility to view a variety of sensors and data through multi-function displays – designed to ensure optimal situational awareness of integrated systems and sensors anywhere on the bridge.

For submarines, OSI offers Tactical Dived Navigation System (TDNS) featuring a custom hardware design and the full operational capability offered by OSI's ECPINS Submarine, and closely interfaced with the submarine's systems and sensors.

For more information, visit OSI at Booth A22.

### **About OSI**

OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military customers for over 20 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 20 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
