For Immediate Release

### **OSI Maritime Systems Announces Australian Contract**

OSI Maritime Systems (OSI) is pleased to announce that it has signed a contract to support the OSI navigation and tactical system used fleet-wide within the Royal Australian Navy (RAN). The contract makes provision for technical support as well as software upgrades for ECPINS-W sub (Electronic Chart Precise Integrated Navigation System – Warship submarine). The agreement also contains provisions for hardware support and maintenance for the ECPINS-W sub workstations installed onboard the RAN fleet.

The RAN has been using OSI's systems since 2004 and is licensed to deploy the technology throughout all defence organisations in the Commonwealth. Through L3 Communications in Australia, OSI has supplied the navigation systems, including upgrades for the past seven years and is looking forward to supporting this customer for many years to come.

#### **About OSI**

OSI Maritime Systems is a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
