For Immediate Release

OSI Maritime Systems Signs Fleet-Wide ECPINS® 6.0 Software Upgrade Contract with the Royal Danish Navy

OSI Maritime Systems, a world leader in naval integrated navigation and tactical solutions, announced today that it has signed a contract to upgrade the Royal Danish Navy to the newly released ECPINS 6.0. The software upgrade will be installed on ECPINS systems that are currently deployed across a fleet of approximately 50 warships.

The Company has been providing navigation and tactical solutions and services to the Royal Danish Navy since 2001.

About OSI

OSI Maritime Systems is a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
