For Immediate Release

OSI Maritime Systems Signs Contract with a US Government Agency to Deliver Maritime Security System

OSI Maritime Systems is pleased to announce that it will deliver a maritime security system that includes five Tactical Asset and Control Tracking (T-ACT) units and a shore based command system. The system will be installed on five patrol vessels. The shore based system will be set up in a command center. Further, OSI will design and install infrastructure to enable long range communication in the Great Lakes region.

About OSI

OSI Maritime Systems is a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
