OSI Maritime Systems Signs Contract with BAE Systems to provide T-ACT Systems for the UK Navy's Fishery Protection Squadron Patrol Vessels

OSI Maritime Systems has been awarded a contract to upgrade three Fishery Protection Squadron patrol vessels' WECDIS systems and install Tactical Asset Control and Tracking (T-ACT) systems on six rigid-hulled inflatable boats (RHIB).

The project is in line with several past successes which involved T-ACT installations, including the 2010 Vancouver and 2012 London Olympics.

About OSI

OSI Maritime Systems is a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
