For Immediate Release

OSI Maritime Systems Signs Contract to Provide a Portable Warship-AIS and Situational Awareness System for the UK Royal Navy Submarines

Vancouver, BC, Canada - OSI Maritime Systems Ltd. (OSI) is pleased to announce that it has signed a contract to provide a Portable Warship-AIS and Situational Awareness system for immediate deployment across the entire UK submarine flotilla.

Under the terms of this contract, OSI will provide a portable system that will allow a submarine to benefit from the AIS picture as well as providing an advanced situational awareness and navigation system deployable in the conning tower of all UK submarines.

OSI has been supporting the UK Royal Navy warship integrated navigation system requirements since 2005 and this recent contract confirms their on-going commitment to the Company's technology.

About OSI

Based in Vancouver, BC, OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military and commercial customers for over 35 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
