For Immediate Release

OSI Maritime Systems Signs Contract to Deliver TDNS to the Royal Swedish Navy

Vancouver, BC, Canada - OSI Maritime Systems (OSI) is pleased to announce the award of a contract for the Company's Tactical Dived Navigation System (TDNS). The Systems will be delivered to ThyssenKrupp Marine Systems AB as part of a Royal Swedish Navy submarine upgrade program, and includes OSI's subsurface WECDIS software.

Navies worldwide have made ECPINS their choice for WECDIS (Warship ECDIS) because of the advanced features and OSI's extensive experience in warship navigation. As a result, ECPINS is the fleet standard for many NATO and allied navies including Canada, Australia, UK and Denmark.

About OSI

Based in Vancouver, BC, OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military and commercial customers for over 35 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
