For Immediate Release

OSI Maritime Systems Signs Contract with the Royal Canadian Navy to Provide In-Service-Support and an Upgrade to the Most Advanced ECPINS-W Sub 6.0

Burnaby, BC, Canada - OSI Maritime Systems (OSI) is pleased to announce that it has signed a contract to provide in-service-support for its ECPINS-W Sub software - ECPINS is the only ECDIS independently certified against NATO WECDIS STANAG 4564. The software is in service across the Royal Canadian Navy surface and subsurface fleet. Under the terms of this contract, OSI will provide an upgrade to its most advanced ECPINS-W Sub software and provide in-service support for this software for 6 years, with options to extend for up to 20 years.

OSI has been supporting the Royal Canadian Navy warship integrated navigation system requirements since 2001 and the recent 6-year in-service-support contract confirms the Navy's long-term commitment to the company and its technology.

OSI recently announced the signing of a contract with the Royal Australian Navy to provide in-service-support for the company's world leading ECPINS-W software, installed across their fleet of warships and submarines.

About OSI

Based in Burnaby, BC, OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military and commercial customers for over 35 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
