For Immediate Release

OSI Maritime Systems to Deliver WECDIS Systems to the Turkish Navy

Burnaby, BC, Canada - OSI Maritime Systems (OSI) is pleased to announce the signing of contracts to provide the Turkish Navy with OSI's world leading Warship Navigation System, which includes ECPINS-W software. These systems will be installed on two Landing Ship Tanks and two Rescue and Towing Ships for submarines.

OSI has previously delivered systems to the Turkish Navy MILGEM Corvette program.

About OSI

OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military customers for over 20 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
