For Immediate Release

OSI to provide TDNS for the Royal Swedish Navy A19 Submarine Upgrade Program

Burnaby, BC, Canada - OSI Maritime Systems (OSI) is pleased to announce the awarding of a contract to deliver Tactical Dived Navigation Systems (TDNS) for the Royal Swedish Navy A19 Götland-class submarines' upgrade program.

OSI's TDNS is designed specifically for subsurface platforms. TDNS features a bespoke hardware design and the full operational capability offered by OSI's ECPINS-W Sub, the only ECDIS independently certified against NATO WECDIS STANAG 4564. TDNS will also be closely interfaced with the submarines' Combat Management Systems.

OSI's world leading dived navigation solutions are deployed with the navies of the UK, Australia, Canada, Netherlands, South Africa, Portugal, Brazil and Sweden.

About OSI
OSI Maritime Systems has been providing advanced integrated navigation and tactical solutions to military customers for over 20 years. As a pioneer of Warship Electronic Chart Display and Information Systems (WECDIS), the company has grown to be a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 19 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
