

## OSI Donates to Canuck Place Children's Hospice Celebrating Community Involvement

April 5, 2021 – OSI Maritime Systems is proud to announce that the company has donated \$21,550 to Canuck Place Children's Hospice. The donation is a result of OSI's annual community donation program.

"Our mission is the safety and security of international navies, and most of OSI's business is global," stated Ken Kirkpatrick, President & CEO, OSI Maritime Systems. "We rarely have a chance to give back and share our success with the community in which we work."

This year's donation is particularly rewarding as it gave OSI employees a chance to thank Canuck Place Children's Hospice for providing over 30 years of care to children and their families. The Hospice first opened its doors in November 1995 to become North America's first free-standing children's hospice. Responding to needs specifically for children, it delivers care which includes medical respite, pain and symptom management, art, music, and recreation therapy, end-of-life care, and grief, loss, and bereavement counselling. All at no cost to families.

Mr. Kirkpatrick continued, "From the community perspective, the Hospice has been a cornerstone of support for so many over the years. It's a privilege for OSI to be able to make this donation."
