

FOR IMMEDIATE RELEASE

OSI Maritime Systems Signs Contract to deliver Integrated Navigation Systems to DSME for Indonesian Navy Type 209 SSK Program

May 29, 2013

Vancouver, BC, Canada - OSI Maritime Systems (OSI) is pleased to announce the signing of a contract with Daewoo Shipbuilding & Marine Engineering (DSME), South Korea. As part of the program, DSME will build three Type 209 diesel submarines (SSK) for the Indonesian Navy. Under the terms of the agreement, OSI will deliver three Integrating Navigation and Tactical Systems, including ECPINS-W Sub software. ECPINS-W Sub is the most advanced navigation software in the world specifically designed for the unique requirements of subsurface navigation.

About OSI

OSI Maritime Systems is a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.
