For Immediate Release

OSI Maritime Systems Signs Contract to Provide In-Service-Support for the Royal Australian Navy

Vancouver, BC, Canada - OSI Maritime Systems (OSI) is pleased to announce that it has signed a contract to provide in-service-support for its ECPINS-W Sub software. The software is in service across the Royal Australian Navy fleet.

Under the terms of this contract, OSI will provide software upgrades and engineering support services over the next three years.

OSI has been supporting the Royal Australian Navy warship integrated navigation system requirements since 2004. This recent contract confirms their on-going commitment to the Company's technology.

About OSI

OSI Maritime Systems is a leading provider of integrated navigation and tactical solutions designed for naval and maritime security operations. The company develops and delivers integrated bridge systems for warships, integrated dived navigation systems for submarines, and C2 systems for small craft. OSI currently has 16 naval customers from around the world with over 500 warships and submarines operating with its world leading integrated navigation and tactical solutions.

ECPINS (Electronic Chart Precise Integrated Navigation System for Warships) and ECPINS-W Sub (Warship Submarine) are International Maritime Organization Approved ECDIS and the only WECDIS systems independently certified against NATO WECDIS STANAG 4564.
